

Lake Grove District

The Lake Grove shopping and business district includes nearly one mile of Boones Ferry Road frontage, from Madrona Street on the south to Kruse Way on the north. With approximately 780,000 square feet of ground floor space, the district has a mix of locally-owned, regional and national commercial uses, including retail, medical, grocery, dining, service and office.

It serves as both a neighborhood shopping district for Lake Oswego residents as well as a dining and business service center for the nearby Kruse Way office area. Civic anchors include the Lake Grove Post Office and Lake Grove Elementary School. The City recently adopted the [Lake Grove Village Center Plan](#) and is planning improvements to Boones Ferry Road, both of which are intended to improve this already lively business district.
