

2012 Water Rehabilitation Project - WO 130

The City of Lake Oswego's Engineering Division is rehabilitating water pipelines throughout the City. The rehabilitation will replace old, undersized and leaky water pipes with new water lines that improve water quality, fire suppression capability and reduce water loss. Additionally, we will be replacing old fire hydrants in similar locations and installing hydrants in new locations to add additional fire protection. This project is an essential component of the City's commitment to provide an adequate water system to meet the demands of today and tomorrow.

The following is a list of streets that will see construction activity:

A Avenue	Kilkenny Drive
Reese Road	Pericles Court
Eena Road	Lookout Court
Gershwin Court	Sibelius Court
Sundeleaf Road	Churchill Downs Road
Preakness Court	Pimlico Court
McNary Parkway	Cirque
Tanglewood Drive	

During construction there will be periods during the day when water will be shut off in order to connect existing services to the new main lines. These periods will be kept to a minimum and the contractor will give adequate notice to the affected water customers. Local access on all roads will be maintained throughout construction, however on street parking will not be permitted in the work zones.

If you would like more information about this project, please contact Josh Robertson, PE, Associate Engineer at email.

For additional information or if you would like to leave a message regarding construction projects in your neighborhood, please call the Construction Hotline at 503.635.0261 and we will return your call.

UPDATE:

Additional work has been added to this ongoing project to coincide with upcoming road work on 2nd Street. The water main and services will be replaced on 2nd Street between A Avenue and B Avenue. Work started on October 23rd and will last approximately four weeks. The majority of the work will take place at night with work hours of 7:00 p.m. to 6:00 a.m. Water customers that are directly affected by the work will receive additional notice prior to any service interruption.

November 13, 2012

- **The final night of construction on Second Street is planned for Thursday evening, November 14th. Water customers that are directly affected by the work will get notification of the exact timing.**
