

My Senior Center

MySeniorCenter is a computer-based senior center management and reporting system that includes a bar code scanner, touch screen, and computer server. It is truly a turnkey system designed specifically for senior centers. Increase funding, manage your center, and generate reports with the click of a button!

Purchased in 2008, MySeniorCenter has saved countless manual hours that use to be spent tabulating numbers, preparing reports, completing and tracking registrations and organizing the facility use. Not to mention the large amount of savings acquired by not using all that paper!

All fee based programs will continue to register through the [Parks and Recreation Online Registration](#).
