

Fine Arts & Crafts

The library has an excellent collection of art and craft books. If you want to learn more about a particular artist, browse through art history, paint a masterpiece, create a mosaic, weave a tapestry, or just make a creative gift for that special someone, the library has the books for you. Thanks to the generosity of The Friends of the Library, our collection has developed and blossomed.

The art books are on permanent display on the second floor of the library, wrapped around the light well. The collection is easy to view and quite extensive, and books can even be checked out from the library.

Another art opportunity at the library is the display of local art shown in the main stairway of the library.
