

Fire Department Virtual Tours

Take virtual tours of Fire Department stations and equipment.

[Fire Engine Virtual Tour](#)

Engines are designed to assist in fighting fires by transporting firefighters to the scene and providing them with access to the fire, along with water or other equipment.

[Apparatus Bay Virtual Bay](#)

This is the garage where the emergency response vehicles are parked.

[Inside Fire Engine Cab Virtual Tour](#)

The cab is an enclosed space where the firefighters are seated in the fire engine.

[Antique Fire Engine Virtual Tour](#)

Lake Oswego's first Pumper, a 1923 GMC. This fire engine was retired in 1957 and was later submerged in water during a flood in 1964. The beautifully restored vehicle is on display at the Main Station on B Avenue.

[Firefighter Quarters Virtual Tour](#)

This is the living area above the garage bay where personnel reside during their 24 hour shifts.

[Firefighter Workout Room Virtual Tour](#)

Since it is particularly important for emergency responders to keep fit they have a work out room in quarters.
