Waluga Drive closed due to water main break - to reopen by 3:30pm

As a result of a water main break this morning (Tuesday, August 14), Waluga Drive is closed between Parkhill Street and Oakridge Road. This closure will prohibit vehicular access to West Waluga Park.

The break caused major damage to the road across both lanes. While initial repairs are expected to take all day, the road should reopen around 3 or 3:30 p.m.

The road will be repaved tomorrow, requiring one lane to be closed at a time. Flaggers will be on-site tomorrow to assist traffic flow, but the public could expect some delays.
