Free Showing of *Deep Green* with Local Filmmaker Matt Briggs

LAKE OSWEGO – The Lake Oswego Sustainability Advisory Board is excited to present a free showing of Matt Briggs' outstanding film, *Deep Green*, on Saturday, May 15, at the Lake Grove Presbyterian Church, 4040 Sunset Drive. The feature-length documentary begins at 7:30 p.m. with an introduction by filmmaker Matt Briggs, a Lake Oswego resident. Briggs will also be available for questions following the showing.

Over three years in the making, *Deep Green* is the first documentary devoted exclusively to showing us how to de-carbonize energy and restore the natural world. Accompanied by an international team of award-winning cinematographers, filmmaker Matt Briggs takes us on a compelling journey to nine countries, including China, to uncover the best people with the best ideas, cutting-edge technologies and restorative solutions to get the job done... if we start now.

This unique feature package includes world-class CG animations by the award-winning Bent Image Lab and an original frame-by-frame score by jazz pianist and composer Randy Porter. The bands REM and Phish also donated music for the project.

For more information, please contact Justin Bates, Sustainability Outreach Specialist, at 503-635-0286 or jbates@ci.oswego.or.us.

The Lake Oswego Sustainability Advisory Board is a citizen advisory body appointed by the City Council that is working to build a community with a high quality of life, a healthy environment, and a strong and resilient economy. The Board consists of nine adult and two student members.
