The Xpeditions Atlas is now the new and improved MapMaker 1-Page Maps portal on the National Geographic Education beta website. Customize black-and-white outline maps in greater detail than ever before. Select how simple or detailed the map is, including adding or removing borders, names, grid lines, and more. Use drawing tools and markers to add additional features.

Depending on your location, you can view basic or custom maps and local business information, including business locations, contact information, and driving directions. Click and drag maps to view adjacent sections immediately. View satellite images of your desired location that you can zoom and pan. You can even get directions by car, public transportation, bicycle or foot routes!
