The Phase 2 Community Development Code Streamlining and Updates project continues the work of the 2010 Community Development Code Audit and the Phase 1 Code Reorganization project completed last year. It also supports the We Love Lake Oswego Comprehensive Plan Update. The goal of this initiative is to make the Code more clear, concise, adaptable and user-friendly. The updates are also intended to facilitate future housing and job growth in existing commercial and mixed use areas instead of in low density neighborhoods.
