North Shore Road Bridge Closed

LAKE OSWEGO – To maintain public safety, starting today (7/14), the North Shore Road Bridge will be closed until further notice.

The City has identified structural concerns with the retaining wall near the bridge. We are investigating the retaining wall conditions and conducting a structural analysis over the coming months. Long-term closure may be needed.

Please use alternative routes, and keep North Shore Road for local traffic.

The City is hiring an expert structural engineer to perform further analysis, identify the cause of the issue, and possible solutions. Updated project timelines and closure plans will be shared as soon as we have more information.

For more information, visit www.lakeoswego.city or call the Construction Hotline at 503-635-0261.
