

Rassekh Park Skatepark TAC Meeting #1

MEETING SUMMARY

Project:	Rassekh Skatepark	Project No:	5050
Meeting / No:	TAC #1	Meeting Date:	3/17/2022
Location:	Zoom (Virtual)	Meeting Time:	5:00 PM – 7:00 PM
Archive	Video Archive of TAC Mtg #1		

Attendees

Kyra Haggart (City of Lake Oswego)	Jaxon Statzell (California Skateparks)	Zach Wormhoudt (California Skateparks)
Kirsty Reilly (Palisades Neighborhood Association)	Jason Murray (Skater and Parent)	Lisa Shaw-Ryan (Parent)
Mac Shaw-Ryan (Parent)	Hudson Bryd Youth Skater	Sebastian Joyce Youth Skater
Trent Edwards (Skater)	Connor Martin (Skater and Parent)	

Item	Introduction and Power-Point Presentation
Meeting Introduction	<ul style="list-style-type: none"> Kyra Haggart started the meeting by having all participants introduce themselves then reviewing the meeting guidelines. The introduction was followed up by a brief history of the Rassekh Property and the Project history, including current status of the project with background information on the park plans, project team and project schedule. Zach Wormhoudt and Jaxon Statzell introduced California Skateparks as a design + build firm and via a Power-Point Presentation covered the following topics: <ul style="list-style-type: none"> Skatepark Design Current Status and Process Site Overview; Constraints, Opportunities Design Process and Considerations Construction Process Tentative Completion/Opening May 2023
	Discussion
Skatepark Design Input Open Discussion Led by Zach, Jaxon and Kyra.	<p>During the discussion the following design suggestions were brought up and discussed:</p> <ul style="list-style-type: none"> Design for progression from beginner to advanced skill levels. Provide a good blend/mix of street skating elements and transition elements. It was confirmed the size of 10,000 square feet is the skateable area and does not count planting areas. There was a concern brought up of the aesthetic of the design and a request for it to have a natural feel/look to match the rest of the park design. Make it blend into the park. There was concern brought up regarding making sure the skatepark is safe for beginners and all park users. There was a concern regarding CO2 and if there is anything that can be done to mitigate the impacts. It was noted that there are green concrete mix designs available. It was stated that pools and bowl are important, but that they do not need to be

	<p>extreme and over 8-feet deep.</p> <ul style="list-style-type: none"> • There was a request to have some portion of the park covered to allow for skating during inclement weather. • There was a request to consider including lighting for the skatepark to allow for skating during non-daylight hours. • There was a request to ensure the park promotes progression of skating and skill development for all terrain types. • There was a request to include multiple types of stair sets. • There were multiple requests that the park be designed to have a high level of flow.
