ODOT MAINTENANCE ON OSWEGO CREEK BRIDGE ON S. STATE STREET NEAR MCVY

LAKE OSWEGO – On August 20, 2007, the Oregon Department of Transportation will begin maintenance work on the Oswego Creek Bridge crossing on State Street south of McVey Avenue. ODOT will conduct this work between the hours of 8 a.m. and 4 p.m.

The work includes replacing aging metal expansion joints, grinding off 2-inches of asphalt, placing a new 2-inch lift of asphalt, and replacing the old metal expansion joints with rubberized asphalt joints, improving the bridge surface. ODOT expects to complete the work within three weeks.

There will be no construction during the Labor Day weekend, from noon on August 31 to September 4 at midnight. The paving portion of the project will continue after Labor Day and may be done at night to limit traffic impacts during the day.

If you would like more information about this project, please contact Mike Mason, ODOT Public Information Officer at 503-731-8246.
