## Title of Document: 7.5 LOPR\_ Maintenance and Operations

Lake Oswego Parks & Recreation believes that maintenance and operations are key to a sustainable parks, recreation and natural areas system. The resources committed to its upkeep determine the quality of users' experiences. The Parks Staff is responsible for the maintenance of the City's developed parks sites, natural areas and open spaces, athletic fields, golf course and specialty facilities.

Parks Plan 2025 describes the community's priorities of expected service, and a listing of parks inventory and maintenance tiers. The Parks Division has revised the maintenance standards in some areas based on funding changes, demands of community users, and staff's own expectations and pride in their work. *7.5.A LOPR\_Parks Maintenance Manual* describes the standards for maintenance tasks and frequencies that reflect this revision (increase) in each area of care in the parks system. It specifically addresses Park Landscape, Athletic Field, Natural Area, Golf Course and Facility maintenance standards.
