

City of Lake Oswego Central Safety Committee

Welcome to the Central Safety Committee Website!

The purpose of the Central Safety Committee is to support a safe work environment for employees at the City of Lake Oswego pursuant to Oregon OSHA regulations. To facilitate this purpose we meet once a month and perform quarterly safety inspections of all City facilities.

We welcome your input and feedback. If you are aware of an unsafe condition or practice in your work area please notify your supervisor and/or your safety committee representative. You can also complete a safety suggestion form, found below.

We always welcome employees to join the safety committee. If you are interested and want more information please contact Megan Phelan at 503-635-0281 or any member of the safety committee.

EMERGENCY INFORMATION AND NOTIFICATION

The Central Safety Committee (CSC) would like to remind employees of the City's **Employee Emergency Information Line: 503-534-5280**. This line will be updated, as necessary, and will include information on City facility closures or delayed openings, emergency closures, leave requirements, and other emergency information. Keep this phone number handy - program it into your cell phone, post it on your refrigerator, or keep it in your wallet.

Also, register for **CodeRED**, the City's emergency notification system that will be used to communicate local emergencies and information.
