

If I were Mayor....

Love

I would: "Nothing is impossible"

I would be

If I were Mayor, I would treat everybody equally and listen to what everyone had to say. I wouldn't judge anyone based on race or culture, and I would display humor, functionality, honor, integrity, dispatch, collaboration, honesty, perseverance, energy, and wisdom. I would make sure everything was respected and loved, and would support small businesses. I would make the Lake Oswego community a better place to live, for all.

Open a Recreation Center

If I were Mayor, I would open a recreation center where families of all types could participate in activities such as basketball, yoga, dance, soccer, swimming, and many more. This would be a safe and fun place that adults could work from, and where after school and on weekends children could participate in fun things they have loved doing with friends.

Live
Laugh
Love

"Aim for the stars"

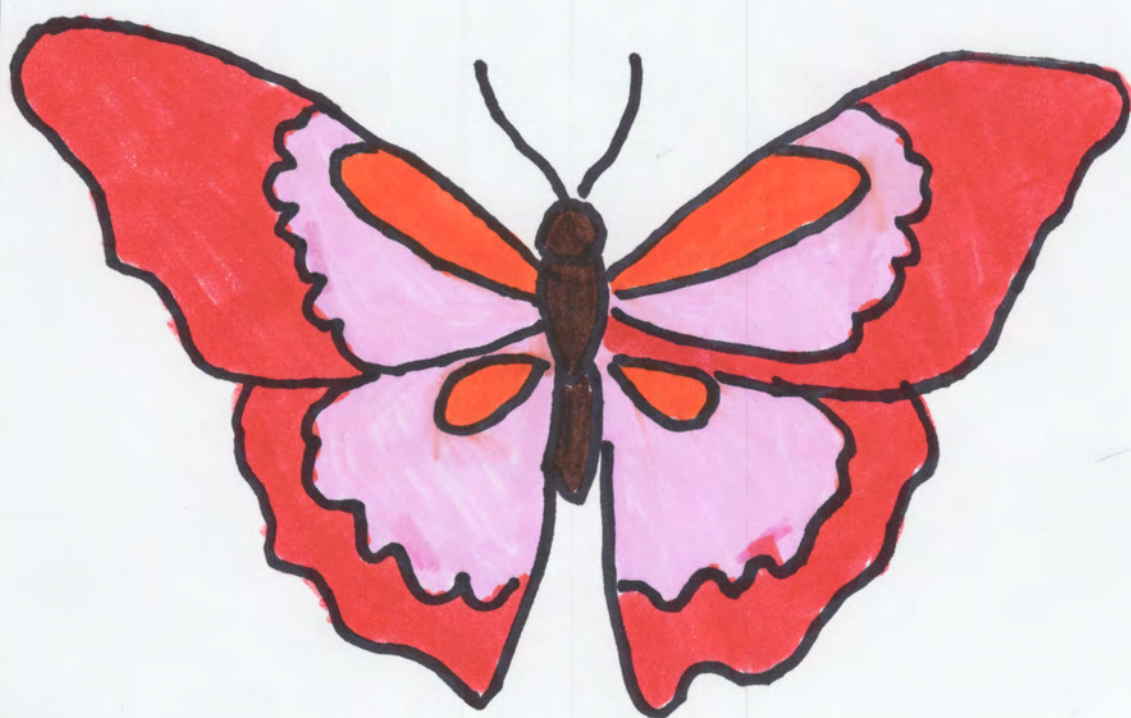

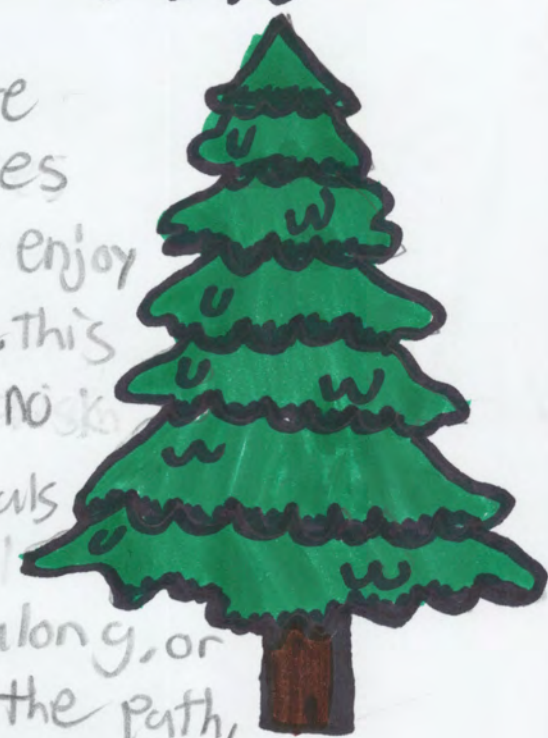

"Treat others the way you would like to be treated"

"The time to start is now"

Create Protected Parks

If I were Mayor, I would create protected parks where native species could thrive, and families could enjoy the sights and sounds of nature. This would be a place where there's no risk of harm to the plants and animals of the park. There would be trails on which families could walk along, or they could rest on benches along the path, reading a book or just relaxing.

Black Lives Matter!

Open More off-leash dog parks

If I were Mayor I would build and open more off-leash dog parks. This is good for the community because it gives the many dogs in LO places to run, play, and socialize with other dogs. These parks would be somewhere with not much traffic, and the dogs would be fenced in. There would be "amenities" such as water bowls, poop bags, a hose, dog treats, a fire hydrant, and maybe a play area nearby for little kids. Dog parks would keep kids safer, and it would give a chance for citizens to get to know one another.

Attitude is a little thing that makes a big difference

Peace

Create Community Gardens

If I were Mayor, I would create one or two community gardens. These gardens would give people a chance to socialize with others, and to grow, harvest, and share their fresh food. They promote physical activity, and studies show that gardening relaxes the mind, and that you are more likely to eat food you've grown yourself. Community gardens are a good way to protect your plants, and they are a nice place to get to know your neighbors.

Equality for all
