

EMERGENCY PREPAREDNESS FAIR

WEDNESDAY, APRIL 25, 5-8 P.M.
PARKS & REC AT PALISADES, 1500 GREENTREE RD

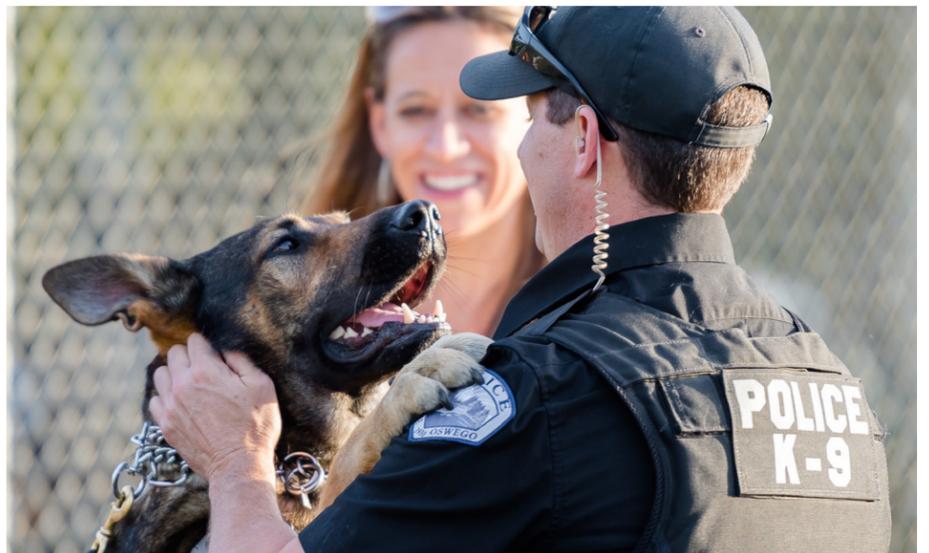

Learn how to care for yourself and your family in the event of an earthquake, flood, winter storm, or other disaster at the Emergency Preparedness Fair. Brought to you by the city of Lake Oswego, this free family-friendly event will feature approximately 20 informational booths plus programs and activities. **Stop by any time between 5 and 8 p.m.** and learn about water filtration and storage, emergency food options, emergency supply kits, pet preparedness, portable sanitation, seismic retrofitting your home, non-structural recommendations, solar power options, and much more!

Special programs and activities

- **Bike Rodeo.** Bring your bike and have fun at our Bike Rodeo course. Kids 14 and under will learn and practice the rules of the road. Kids will travel through several stations to learn basic bike safety and ride an obstacle course to test your bike-handling skills. Plus, we'll check your bike for safety and make sure your helmet is adjusted correctly.

- **Water Container and Bag Giveaway.** To prepare for an emergency, it is recommended that people store one gallon of water per person (and pet) per day for a minimum of 14 days. To help residents meet this goal, the City will be giving away approximately 300 BPA-free 3-gallon water containers (limit of one per Lake Oswego household, while supplies last). In addition, we are giving away one-gallon soft-sided water bags. Add this one-gallon bag to your emergency kit, and use it to get water from a distribution center in an emergency.
- **Tackle the Junior Firefighter Course** and learn how to get out of a burning house.
- **See an amateur radio demonstration** by the Lake Oswego Amateur Radio Emergency Service (LOARES) and learn how you can become a HAM.
- **LOPD's K9 Team** – Meet Officer McMahon and K9 Chase. Chase joined LO's K9 unit in October 2016 at just 17 months old.
- **Sand bag demonstration.** Learn how to properly and efficiently fill a sand bag and how to stack them to get the most protection against flood waters.
- **Lake Oswego's emergency vehicles** – including the Fire Department's new ladder truck, police vehicles, and the city's Mobile Water Treatment System trailer.
- **Learn how to save a life!** Join the Lake Oswego Fire and Police Departments for special hands-only CPR training. Public Safety officials will teach the core skills of CPR and participants will have the opportunity to practice with mannequin Mini Anne.
- **Learn how to build and set up a water filtration system.**

Presentation

Cascadia and Other Disasters We Face in Oregon, and Being Prepared for Self-Sufficiency

The City is proud to host a presentation featuring Jay Wilson from Clackamas County Emergency Management. Please join us from 6 to 7 p.m. in the Willamette Room to learn about:

- Cascadia and other earthquakes, floods, landslides, snowstorms, everyday disasters we face in Oregon and why it's important to be prepared.
- The likelihood of a catastrophic earthquake in the Pacific Northwest.
- Why you need to be prepared for self-sufficiency - what happens when the white hats don't come to the rescue.
- How do you get started putting an emergency plan together with your family.
- Tips to help make your home safer in case of earthquake.

Jay Wilson is the Clackamas County Resilience Coordinator with the Department of Emergency Management and spearheads the County's efforts to reduce risks and assess hazards including flood, earthquake, wildfire, volcano, and tsunami hazards, and climate change impacts. He has also lead sustainable recovery planning efforts between local, state and federal government agencies in working with the community groups affected by the January 16, 2011, flood event on the upper Sandy River.

Mr. Wilson is the former Chair of the Oregon Seismic Safety Policy Advisory Commission (OSSPAC) and also formerly served as a Disaster Resilience Fellow with the National Institute of Standards and Technology (NIST).
