Subject: Planning Commission inputs.

Dear Commissioners,

I regret I am unable to attend the meeting scheduled for Monday, September 14.

As an owner of a residential property which is mostly covered by sensitive land overlays, I feel that property owners such as myself and others, in carrying the burden for these overlays when so many areas were already over developed without them, we deserve a reduction in our property taxes commensurate with the percentage of the property is subject to the overlay, as we are prevented from realizing the full economic value of our property by an act of government, and this is an unfair and uneven situation for us versus the many whose properties are unaffected.

Thank you,
Matt McCullough
663 Carrera Ln, Lake Oswego
