Lake Oswego Planning Commission

Re: Lot line adjustments for substandard lots

I own a 100x100 lot which is plotted for 2- 50 foot lots. I oppose any combination of these two lots into one for the following reasons:

- Urban growth boundary requires us to infill as much as possible
- Changing lifestyle patterns in which working couples want a modest home with a small yard
- Water shortage—large yards require lots of water
- Taking of property without compensation

Thank you,

Susan Heichel
