**Subject:** ordinance 2666 (definition of "lot")

I find this proposed ordinance to be poorly worded. What does "commonly-owned" mean? All lots owned by the same person? All lots owned by related family members? All lots owned by related corporations? All lots owned by unrelated persons formed into a single partnership? All lots owned by unrelated persons but doing business under a single assumed business name? Does it include some, but not all, of the foregoing?
