## **SUSTAINABILITY ADVISORY BOARD**

### **Vision of a Sustainable Lake Oswego**

A sustainable Lake Oswego is a community that meets the vital human needs of the present without compromising our ability to meet future needs. This requires consideration of both long-term and short-term effects on ecological, economic, and community systems. Operating sustainably means that we are leaving a legacy for the community of Lake Oswego and the planet.

A sustainable Lake Oswego is a place recognized nationally as a model of livability—a unified city with a vital downtown, a strong sense of neighborhoods, and a harmonious relationship with the natural environment. The lives of everyone who lives, works, and conducts business in Lake Oswego are enriched by a wide range of choices in transportation, housing, recreation, and culture. Our infrastructure is sound, our finances stable, and our citizens and employees healthy and engaged.

### **SAB Mission & Duties**

- a. Advise and assist the City Council in efforts to make City operations more sustainable.
- b. Assist in the development of plans and policies to enhance the sustainability of the City as a whole.
- c. Educate and support other Lake Oswego organizations to become more sustainable.
