Rob, after speaking with Rob Fallow we think you'd be a perfect person to deliver a message from the school board. We have a meeting Monday night so can't be at the Planning Commission Monday. Let me know if you're ok with this, and thank you!

Linda

On behalf of the Lake Oswego School Board I'd like to express this support for the Revised Foothills Framework Plan:

In recognition of the multiple benefits which our schools and community could realize from new development in the Foothills area we, members of the Lake Oswego School Board, support and encourage the City of Lake Oswego's continued efforts to plan and design a mixed use residential/ retail neighborhood in the Foothills area. As our Board Chair puts it so well: "We want the kids!"
